CALFED BAY-DELTA PROGRAM

Office Memorandum

OCT 30 1995

Date: October 25, 1995
To: Lester
From: Victor *VAP*
Subject: Comments on Action Category Descriptions

Attached for your information are comments from Charles Hanson (Hanson Environmental) on several action category descriptions. Hanson Environmental, under contract with Jones and Stokes Associates, reviewed these descriptions to ensure their accuracy and completeness. Although his comments focus more toward actions, I thought you might be interested - particularly as they relate to habitat restoration and improved production and survival of species.

We will be meeting with JSA to discuss Hanson's comments and also provide comments on the action category descriptions, category list, action descriptions. If you have any questions, please see Rick Soehren or myself.
